

SOSC-225 Career Development

Week 7 Informal Career Plan Reflection

Natasha Bradley

I have learned how to position myself for the career I am applying for from my course material. I think I have chosen a very good course that can equip me with the professional skills and resources that will help me to be an exceptional BSN nurse for the community. I have the skills to create a Resume, Portfolio, and I know how to have a successful interview through the assignment with the mock interview process. I have so many career goals that I would like to achieve as a student at Bryant Stratton College. I believe I was blessed to come and leave this school to further my education in nursing. I have been building my network that will help me and others to find the best facility to work. I know that having the knowledge will help me to get the job I am interested in and what would be expected of me. I want to find a job in the medical field because that is an area where I am gifted at helping and assisting people. I feel that everything in my life is right on time for where God will be for my life. I believe I could have put more time and effort into my portfolio to make sure that I am the best candidate for the position. I believe that I can achieve the institutional and course outcome which are Information Literacy and Communication, Relational Learning, Thinking Abilities, and quantitative and Scientific Reasoning. I would love to participate in social, academic

and professional communities for individual growth and to function as a citizen for a multicultural world. One of my goals would be to articulate the knowledge and the skills and behaviors connected to the program outcomes to demonstrate workplace readiness. My thinking abilities employ strategies for reflection on learning and practice to adjust learning processes for continual improvement. I will utilize appropriate current technology and resources to locate and evaluate information needed to accomplish a goal and then communicate findings in visual, written, and oral formats. This course has helped me in so many ways because I am a master student when I follow my instructor instructions and get the best information to complete my assignment with an exceptional grade. The mock interview, Resume, Portfolio has helped me so that i will get the best job with great pay. I will continue to get everything that is needed to graduate with an exceptional GPA to continue my education as a BSN Nurse. In completion of Graduation, I will have to create a professional portfolio so that employers can look at it and see that will be the best experienced candidate for the position. My character, personality, and tenacity with perseverance has always given me the opportunity to open doors. I want to complete this assignment by saying thank you for the opportunity and the knowledge to have the skills to further my education and be successful. I just reflect on how far I have come at Bryant Stratton College and all it had to offer, including some obstacles I had to endure. Let my family and others know about this school because it was an exceptional experience to overcome. Someday I will be able to meet you in person.
