Bryant & Stratton College

Outcome / Competency Evaluation

Faculty: Alison Coleman

Student: Jodi Camp

Outcome: 3 - Abstract information from medical charts to assign the correct diagnosis (ICD-10) procedure(CPT) and supply (HCPCS Level II) code in a variety of medical situations.

Completed: 10/22/23

MCCG146 Portfolio Project Rubric

Code Accuracy (60 Points)

Exceeds Expectations	Meets Expectations	Needs Improvement
----------------------	--------------------	-------------------

54 – 60 points All codes are correctly identified within the overall assignment.	42 - 53 points One code and/or one character is coded incorrectly within the overall assignment.	0 – 41 points More than one code and/or two or more characters are coded incorrectly within the overall assignment.
--	--	---

60

Reflections (30 Points)

Exceeds Expectations	Meets Expectations	Needs Improvement
----------------------	--------------------	-------------------

27 – 30 points All reflections provide accurate, thorough, and detailed explanations of the code selections. All	21 – 26 points Some reflections provide somewhat accurate, somewhat thorough, and somewhat detailed	0 – 20 points Some reflections provide inaccurate explanations and lack detail on the code selections and/or some reflections' word
--	---	---

30

reflections' word counts meet requirement of 250 word or more.	explanations of the code selections and/or some reflections' word counts are 200-249 words.	counts are less than 200 words.
--	---	---------------------------------

Mechanics (10 Points)

Exceeds Expectations	Meets Expectations	Needs Improvement
-----------------------------	---------------------------	--------------------------

9 – 10 points	7 – 8 points	0 – 6 points
Makes minimal grammar, spelling, and punctuation errors. Errors do not distract reader or cloud meaning of the message. Writing is clear with no "text" or "chat" language.	Makes several errors grammar, spelling, and punctuation errors. Errors do not distract or cloud the meaning of the message. Some "text" or "chat" language is used.	Makes several errors grammar, spelling, and punctuation errors. Errors distract reader and/or cloud meaning of the message. Some "text" or "chat" language is used.

INSTRUCTOR COMMENTS

NO SCORE SELECTED

Comments:

Jodi,

Thank you for submitting your final portfolio project. You did an excellent job in incorporating the recommendations provided throughout the course, and you created a valuable job aid for your fellow coders.

I hope you found value in this assignment, gaining a deeper understanding of the coding concepts within the CPT and HCPCS coding classification systems.

The purpose of the portfolio project is to comprehensively encompass course objectives and to demonstrate your ability to grasp the CPT/HCPCS coding process, including accurate navigation of CCI edits and proficient use of the LCD/NCD website to apply the information effectively.

I hope that the feedback and rationale offered will serve as a valuable resource for your continued learning and understanding and that found this assignment to be a valuable part of your learning journey.

Best of luck as you continue along your path!
